

**WARNING:**

This fixture is intended for installation in accordance with the National Electrical Code (NEC) and all local code specifications. If you are not familiar with code requirements, installation by a certified electrician is recommended.

ANY QUESTIONS CALL: 800-613-3261  
M-F 8:00AM-6:00PM ET

**CAUTION:** To prevent shock, only plug in lamp after lamp assembly is complete.

**WARNING:** This portable lamp has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to work around this safety feature.

Before assembly, remove all parts and part packages from box. If anything is missing, please contact the retailer from which the product was purchased.

ITEM#: D2932

1. Screw threaded pipe (M) into bottom of lamp column (N).
2. Pass threaded pipe (M) on bottom of lamp column (N) through hole in base (H).
3. Slip flat washer (P) then lockwasher (R) over end of threaded pipe (M) protruding from underside of base (H).
4. Screw hex nut (S) onto end of threaded pipe (M) protruding from underside of base (H). Tighten hex nut (S) with wrench (K).
5. Squeeze ends of harp (B) inward. Insert each end of harp (B) into each end of saddle (D). Lower harp caps (C) over ends of saddle (D).
6. Lower shade (E) down over harp (B). Pass hole in top of shade bracket over threaded stud on top of harp (B).
7. Carefully screw finial (F) onto threaded stud on harp (B). Tighten finial (F) to secure shade (E) in place. DO NOT over tighten.
8. Screw recommended bulb (not included) into socket (A). **WARNING:** Verify correct bulb wattage marked on socket of lamp. DO NOT exceed maximum bulb wattage.
