INTRODUCING THE ABACA COLLECTION

Abaca is a type of banana plant from the Philippines whose stalks produce fibers used in decorative items due to their flexibility, strength, and natural beauty. The Abaca collection has a simplistic design that allows this material to be the focus of attention. Each strand of Abaca rope is tightly hand wrapped to form a textural facade of warm neutral-toned colors. This detailed process requires great time and patience as one long rope is carefully wrapped around the frame in such a manner that each abaca strand is both tight and parallel to ensure even coverage. Variations in color tone, rope thickness, and even occasional peeling brings forth this material's true character. The Satin Brass finished hardware complements each design with a metallic accent.
